As part of the certification program you will be responsible for implementing a project at your place of employment. The goal of the project is to use the concepts and tools you learn to make improvements in your organization and to demonstrate competency in lean curriculum. During the first week of training, Definity Partners will assist you in developing a strategy for achieving your goal and implementing your solution. The following questions are meant to help formulate your objectives to more effectively use the time during the first week.

Project Scope

Briefly describe your intended Project. If you are unsure of a Project idea, identify an area of pain in your organization which you would like to remedy.

Immediate Challenges

Desired Outcome and Results of Your Intended Project

What Impact Will a Successful Project Have on Your Organization?
